

Canton Trail Riders

1 Bucket Flag Race

Ride Pattern

A bucket of sand is placed on the barrel with a flag in the bucket. Rider must go completely around the outside of the barrel in either direction. Take the flag from the bucket and drop or throw the flag behind the barrel. “BEHIND THE BARREL” is defined as a line drawn perpendicular to the arena across the front edge of the barrel. The front is the side of the announcer’s stand. The entire flag, including the stick, must be behind the line.

- Knocking over the barrel or failure to follow the pattern will disqualify the run.
- Knocking over the bucket will result in a 5 second penalty.
